

OPERATING INSTRUCTIONS

To Set your personal combination, follow these steps:

- 1)The lock is opened at original number 0-0-0, aligned with the indication line (even though dial may be positioned at different numbers).Pull up the shackle.
- 2)Turn shackle 90 or 180 counter clockwise to align the notch on the shackle with the slot in the lock body.
- 3)Press the shackle all the way down and hold it, turn the dials to set your personal combination.
- 4)Return the shackle back to original position, now your new personal combination is set.
- 5)Remember well your new combination. If you want to change it again. Please Repeat.

- 1)The lock is opened at original number 0-0-0, aligned with the indication line (even though dial may be positioned at different numbers).
- 2)Press down the lock apart from the hook body,now the lock is ready to open.
- 3)Push down the number-adjusting rod with shape tool,hold the position until next step 3 is finished.
- 4)Turn the dials to set your personal combination.
- 5)Release the number-adjusting rod, now your new personal combination is set.

Remember well your new combination. If you want to change it again, please repeat.

FYI:if the RESET BUTTON won't bounce up after releasing, you can push down the whole locking part towards the shaft.

1. Open lock and withdraw shackle.Note:For first time use,position wheels so that the number 0-0-0-0 aligns with the combination aligns with pointer.
2. Pull spring-loaded metal end cap off.
3. Remove all four combination wheels.
4. IMPORTANT:Make sure the red clutchplate marks remain aligns with pointer.
5. Snap metal end cap back into place.(NOTE:if end cap will not mount properly,check wheel to make sure they are right side up.)

These combination locks are suitable to lock the luggage bag,cabinet,gate,drawer,etc. Easy to remember the combination for your privacy.
