Braun Multiquick 9 MQ 9087X Hand Blender

The Braun Multiquick 9 MQ 9087X hand blender (1,000 W) with ACTIVEBlade technology creates an especially large cutting zone by moving the blades up and down. It effectively chops up even the hardest ingredients with 40% less effort than without ACTIVEBlade technology. You can intuitively adjust the blender's speed by varying the pressure on the Smart Speed button. The resulting suction effect is low so that you always retain full control without any splashes.

More than just a hand blender

You can use the hand blender for many different jobs thanks to a versatile range of accessories: You can process large quantities of vegetables and fruit with the 1,500 ml food processing attachment. The 350 ml chopper is ideal for preparing pesto or chopping nuts. A whisk, potato masher and a measuring jug are also included in delivery.
