PRODUCT SAFETY
When using any electrical appliance, basic safety precautions should always be followed including the following:

• Check that the voltage of the main circuit corresponds with the rating of the appliance before operating.
• Please ensure that the appliance is used on a stable, level, and heat resistant surface.
• **DO NOT** immerse cords, plugs or any part of the appliance in water or any other liquid.
• **DO NOT** leave the appliance unattended while it is operating.

• Close supervision is necessary when any appliance is used by or near children or pets.

• This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

• Children shall not play with the appliance.

• Cleaning and user maintenance shall not be made by children without supervision.

• Switch off at the wall socket then remove the plug from the socket when not in use or before cleaning.

• If the supply cord or appliance is damaged, stop using the appliance immediately and seek advice from the manufacturer or its service agent or a similarly qualified person.

• **DO NOT** let the cord hang over the edge of a table or counter or let it come into contact with any hot surfaces.

• The use of accessory attachments is not recommended by the appliance manufacturer, apart from those supplied with this product.

• **DO NOT** pull the plug out by the cord as this may damage the plug and/or the cable.

• **DO NOT** use this product for anything other than its intended use.

• This appliance is for household use only.

• **DO NOT** carry the appliance by the power cord.

• **DO NOT** use the appliance outdoors.

• Use the appliance in a well-ventilated area.

• **DO NOT** use the appliance near explosive and
combustible gas. Avoid long-term direct solar radiation. **DO NOT** locate the item directly below the socket outlet and outdoor. **DO NOT** use the same socket with other items.

- **DO NOT** let water exceed the “MAX” scale at any time. When operating the appliance, the water should not be below “MIN” scale.

- After adding water to the water tank, **DO NOT** tilt or knock the appliance. If you wish to move the appliance, please push it slowly from the side in order to avoid spilling.

- **DO NOT** cover the wind outlet.

- **DO NOT** use the appliance near water.

- **Caution:** **DO NOT** operate the appliance with wet hands.

- HIGH VOLTAGE ROTATING PARTS

- In the unlikely event the appliance develops a fault, stop using it immediately and seek advice from the Customer Support Team.
WHAT’S IN THE BOX
Instruction Manual
Heater
Remote
Ice box x 2
Castors x 4

1. Warm/cool dial

ASSEMBLY OF THE APPLIANCE

Attach the four castors to the bottom of the appliance by screwing them into place.

CAUTION: Ensure the product is fully assembled before plugging it into an electrical outlet.

USING YOUR APPLIANCE:

Warm/Cool Dial:
On the top of the appliance there is a cooling and heating dial. Adjust this to ‘cool’ when you require cool air, or ‘warm’ when you require warm air.

CONTROL PANEL

Control Panel Functions

Note: All of the functions above work with both the manual control panel and the remote control, but the icons may slightly differ in appearance on the remote control.

USING THE WATER TANK & ICE BOX:

Water tank:
1. Pull the water tank half way out of the appliance.
2. Slowly fill the tank with cold water. Pay attention to the water level markings on the tank to ensure you do not over or under fill the tank.
3. Once you have filled the tank to the appropriate level, push the tank back into the appliance.
4. When the appliance is in operation the water will circulate around the system and back into the water tank.

5. Adding ice or the frozen ice box to the water tank can enhance the cooling effect.

Ice Box:

1. Place the ice boxes in the fridge or freezer before use to ensure they are completely frozen.

2. Place one frozen ice box in the water tank.

Note: Two ice boxes are included so they can be used alternatively.

Warning: Please keep the ice box away from children and animals as it is a chemical based substance that is harmful if swallowed. Ensure the ice box is not exposed to direct sunlight.
CLEANING AND CARE

Before cleaning the appliance, ensure it is disconnected from the power supply and has cooled down completely.

Do not use abrasives or harsh cleaning solutions.

Do not immerse the appliance in any liquid. To clean the exterior, a slightly damp, lint-free cloth may be used.

Cleaning the filter:

To remove the air filter, unscrew it from the back of the Air Cooler & Heater using a Philips screw driver.

Remove the air filter from the appliance and clean it first with a brush and neutral detergent, and then with clean water. Allow it to air dry before placing back in the appliance.

Cleaning the cooling pad:

After removing the air filter, remove the cooling pad. Clean the cooling pad with a brush and neutral detergent, and then rinse with clean water. Allow it to air dry before placing back in the appliance.

Cleaning the water tank:

Pull out the water tank from the back of the Air Cooler & Heater and clean it in warm, soapy water. Allow to dry and reinstall.
WARNING:
DO NOT IMMERSE ANY ELECTRICAL PART OF THE APPLIANCE IN WATER SUCH AS MOTOR UNITS OR PLUGS. PLEASE SEE CLEANING SECTION FOR FURTHER INSTRUCTIONS.
We hope you enjoy your appliance for many years.

As a thank you for purchasing one of our fantastic products, we are offering you an extra 1 year peace of mind.
