Samovar | tea urn | electric kettle

A genuine samovar for professional use

Reliable and economical in continuous commercial use

Since the early 18th century, samovars have been the epitome of high culture and good taste. Samovar literally means “self-boiler”, and people in Russia as well as in the Middle East in particular have come to value their advantages for preparing tea. As one of the world’s leading providers of samovars, BEEM places special value on premium workmanship and stylish appearance.

Samovar 2017 has a generous 3.0-litre capacity and 1500 watts of total power – formidable for continuous daily use. This samovar will be a tasteful attraction in your breakfast room or restaurant, or at your event.
