- 4 feet for use on carpet

**Before you start, you need:**

- Computer
- Wifi Internet access point (router)

---

**Thank you for choosing Smart Body Scale**

Congratulations on your purchase! With the Withings connected scale, you are going to control your fitness over the long-term, by simplifying your life. All of your measurements will be available in your personal web dashboard. This guide to getting started will enable you to avail of all its advantages in a few minutes.

**1. Inserting the batteries**

1. First turn the scale upside down and place it on a flat surface, being careful not to scratch it.
2. Open the cover on the underside of the scale and insert the 4 batteries supplied, taking care to respect the polarities.
2. Connect the scale to your Wi-Fi Network

1. Launch the web browser of your personal computer.
2. Visit the following URL and follow the instructions:

http://start.withings.com

Once you’re done, you’re all set and can start using the scale!

Other Settings

If using on a carpet, add the 4 feet provided.
To change the display units:

use the adjustment button situated in the battery compartment.

Important Safety Information

Caution

General Usage
- This product is not suitable for people with a Pacemaker or other cardiac stimulator.
- The Withings scale data must be considered purely as reference values and not as a medical opinion.
- A doctor must be consulted before making any decision regarding a change in diet or physical activity.
- Do not use the scale on a wet floor or with wet feet; you risk slipping and falling.
- Do not stand on the edges of the scale but well to the centre.

AAA Alkaline Cells Usage
- If AAA alkaline cells fluid should get on your skin or clothing, immediately rinse with plenty of clean water.
- Use only four AAA alkaline cells with this blood pressure monitor. Do not use any other types of AAA alkaline cells.
- Do not insert AAA alkaline cells with their polarities incorrectly aligned.
- Replace old AAA alkaline cells with new ones immediately. Replace all four AAA alkaline cells at the same time.
- Do not use new and used AAA alkaline cells together

Care Instructions

Replacing the AAA alkaline cells
If the low battery symbol appears on the device screen, replace all four AAA alkaline cells at the same time.
1. Remove the AAA alkaline cells cover at the lower end of the aluminum tube.
2. Install or replace four AAA alkaline cells so that the + (positive) and – (negative) polarities match the polarities indicated on the AAA alkaline cells compartment.
3. Put the AAA alkaline cells cover back in place.

If the device will not be used for a long period of time, it is advised to remove the alkaline cells.

Cleaning your scale

Important! Never use detergents to clean your scale. You may irreversibly damage the coating that protects the electrodes used to measure your body fat mass.
