New Product Announcement

Oregon® 700, 750, 750t

June 30, 2016

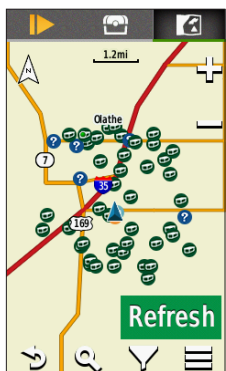

Oregon 700, 750 and 750t are rugged, versatile GPS and GLONASS handhelds that put more of the great outdoors at your fingertips, thanks to a redesigned antenna for better satellite reception in those challenging, out-of-the-way places. Other benefits include Active Weather support with animated radar overlays plus expanded wireless connectivity (Wi-Fi®, Bluetooth®, ANT+®) that includes live geocaches. There's also a shaded basemap, 3-axis compass with barometric altimeter, dual-orientation 3-inch touchscreen and much more. The 750 and 750t handhelds add a powerful 8 megapixel autofocus camera. The 750t also comes preloaded with TOPO U.S. 100K maps.

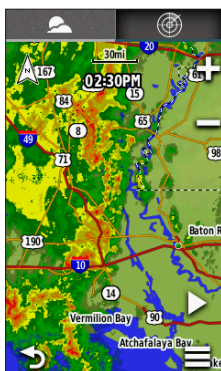

KEY FEATURES:

GPS AND GLONASS	High-sensitivity GPS and GLONASS satellite reception; tracks in more challenging environments than GPS alone
BUILT-IN MAPPING	All models feature worldwide basemap with shaded relief, while the 750t comes preloaded with TOPO U.S. 100K maps
ABC SENSORS	3-axis tilt-compensated electronic compass with accelerometer and barometric altimeter sensors
RUGGEDIZED FOR THE OUTDOORS	Ergonomic, rugged design that stands strong against dust, dirt and humidity — and it is water-rated to IPX7 ¹
DUAL BATTERY SYSTEM	Use 2 AA batteries or optional NiMH rechargeable internal pack
NEW ACTIVE WEATHER	Supports Active Weather forecasts and animated weather tracking
NEW GEOCACHING LIVE	Geocaching.com integration makes it easy to find and download the live caches you want
NEW CONNECT IQ™	Connect IQ compatible to customize the device with data fields, widgets, and apps; find what you like or build your own
SHARE WIRELESSLY	Wirelessly share routes, tracks, waypoints and geocaches with other compatible Garmin handheld devices
NEW REDESIGNED ANTENNA	Enables better reception and performance
NEW ACTIVITY PROFILES	Simplified multiactivity menu interface - including climb, hike, hunt, bike, geocache, fish and more
NEW EXPANDED WIRELESS CONNECTIVITY	Wirelessly download software, receive smart notifications ² , upload your adventures to our Garmin Connect™ online community and even share your LiveTrack location data or geocache discoveries, unit-to-unit, with other compatible devices.
TOUCHSCREEN	3-inch sunlight-readable touchscreen display with dual orientation (landscape or portrait view)
CAPTURE THE MOMENT	8 megapixel autofocus camera with LED flash/torch (750, 750t)
EXPANDABLE MEMORY	microSD™ card slot for optional mapping and data storage
SEE YOUR SURROUNDINGS	1-year BirdsEye Satellite Imagery subscription for real-life terrain views ³
GARMIN BASECAMP™	Compatible with free Garmin BaseCamp™, software that lets you view and organize maps, waypoints, routes and tracks

For more information on compatible accessories, please visit the product page at Garmin.com.

¹ See Garmin.com/waterrating for more details.

² When paired with a compatible smartphone. See Garmin.com/ble for more details.

³ One-year BirdsEye Satellite Imagery (software download is required). Use the included BirdsEye Satellite Imagery subscription with BaseCamp™ to transfer an unlimited amount of high-resolution satellite images to the handheld device for 1 year. Once those images have been integrated into the device, they can be accessed there whenever you need them — even after the initial 1-year offer has run out. Additional BirdsEye Satellite Imagery subscriptions can be purchased from Garmin.com/BirdsEye.

Please note: The ECCNs and Classification numbers provided represent the opinion of Garmin International, Inc. of the proper classifications for the products today (based on the original software and/or original hardware). Classifications are subject to change. Under the U.S. export regulations, the U.S. Government assigns your organization or client, as exporter/importer of record, the responsibility for determining the correct classification of any item at the time of export/import. Depending on the products, the customer, or the country of destination, an export license may be required by the Department of Commerce prior to shipment. The Department of Commerce's Bureau of Industry and Security (former Bureau of Export Administration) website (<http://www.bis.doc.gov>) provides information that might be useful to you in determining whether you need to obtain a license for a particular shipment. To be clear, if an item described above does require a validated export license, it would be the exporter's responsibility to obtain this license prior to exportation.
