Chrono Bike Collection

For the past 25 years Festina has been Official Time Keeper of the biggest Tours. Nowadays the brand maintains this strong link with cycling thanks to its successful Chrono Bike collection. A collection directly inspired by the world of cycling.

With a 44mm diameter case, the watches are made of stainless steel, mineral glass and are water-resistant to 100 meters. The collection from 2016 includes 2 models in Stainless steel (16968 and 16970) and 2 models (16969 and 16971) in steel with black IP plating, offering an even sportier feeling. Colour details are placed on index, sub-dials and hands. Both models are available on a stainless steel bracelet or rubber strap.

Bicycle-themed design traits can be found throughout the collection, reinforcing the links between the brand and the noble sport. The chronograph sub-dials are inspired by the toothed pinion of the bike, while the bezel texture draws its inspiration from racing helmets. The pushers at 2 o'clock and 4 o'clock reference racing pedals, and the fitting of bracelet and case is a subtle nod to the shape of classic "drop" handlebars.

Prestige Collection

The exclusive Prestige Collection is composed by a selection of chronographs that stand out for their stylish appearance, excellent finishes and timelessness. These pieces are specially designed for the most demanding men looking for a unique, affordable luxury watch.

They are made using 316L stainless steel and hardened mineral glass, which make all the different watches in the collection extraordinarily durable and resistant. With a 44,5 mm case, they are water-resistant up to 100 meters and have and elegant yet versatile leather strap or a stainless steel one depending on the model. The IP plating of the case (in blue or black) and of the bezel (in blue, black or rose gold) ensures a top quality finish and offers a wide variety of colour combinations for each and every man to choose the perfect watch according to his style.

Mademoiselle Collection

The Festina Mademoiselle collection launches new seductive models for women who want to shine with elegance and femininity.

The models F16944, F16945 and F16946 are 3-hands classic touch designs that include some special details giving a harmonic timeless look.

Made with 316L stainless steel, all versions have a 36 mm diameter case with stones on the bezel and mother of pearl dial. With leather strap in different soft tones and water resistant up to 50meters. Not only the leather strap tone is cool but also the tone of the IP plating on the case: while the models F16944/1 and F16944/2 are in silver IP plating, the F16945/1 has gold IP plating and the rosé one is for the F16946/1

FESTINA GROUP

With over 30 years of history, the Festina Group is today a prestigious international company specialised in the production and marketing of popularly priced watches movements and precision parts.

Currently, the Group manufactures five brands of watches for the general market (Calypso, Lotus, Festina, Jaguar and Candino) and two jewellery brands (Lotus Style and Lotus Silver).

The Group's head office is located in Barcelona while our major production centres are in Switzerland and Spain.

Today, the Group has seven subsidiaries (France, Germany, Italy, Benelux, Switzerland, Czech Republic-Poland and Chile), is present in over 90 countries on the five continents and sells 5 million watches a year.

The quality of the firm's products, the excellent value for money and the special attention paid to post-sales service all contribute to making the Festina Group leader in many strategic markets.
