03 SETUP – DATE/TIME, OUTGOING MESSAGE & MESSAGE MODE

To set the Date and Time
1. Hold down the DIAL/ERASE button until the LCD appears on the LCD.
2. Press the button below the 
3. Use the buttons to set the hour.
4. Use the buttons to set the minute.
5. Wait 5 seconds and the LCD should now display the correct date and time.

To set your Outgoing Message (the message callers will hear):

Your Domestic Answering Machine has 2 types of Outgoing Message:

• Outgoing Message 1 (OGM1) – this is a message to callers you wish to call back, without leave a message. This is the most common message mode.

• Outgoing Message 2 (OGM2) – this is a message to tell callers to call back later if you have no messages. You do not have to record a personalized outgoing message, your answering machine will say 'OGM1' if you have no messages.

Press the button to set theMessage Mode.

• Answering Message Off (OGM1) – will not answer
• Answering Message On (OGM2) – will answer

Your answering message will say 'The MON 01/04/9x will Flash'

To change the outgoing message type (OGM1/OGM2) press the key twice and press the key to select a parameter and use the to auto dial the caller back.
