and travel case

**Series 9 silver**  
with Clean&Charge Station  
and travel case

**Series 9 blue/black**  
with Clean&Charge Station and  
travel case

Our closest and most comfortable shave in just one stroke.

Braun's smartest ever shaver adapts to you. Our innovative SyncroSonic™ & AutoShave Technology deliver unprecedented performance for a close shave in fewer strokes and more skin comfort than ever before.

## Efficiency in every stroke.

Our Series 9, with its innovative AutoSense Technology and 5 synchronised shaving elements reads your beards, and adjusts the power of the shavers motor to its thickness, 13 times per second. Providing extra power exactly where it's needed. This multiplied by Braun's SyncroSonic Technology with 40,000 cross-cutting actions per minute helps to deliver the world's most efficient and exceptionally gentle shave.

## The SyncroSonic™ head – thoroughly different.

### Five unique shaving elements. Each specialized for different type of hair.

Don't miss flat lying hair or hair growing in different directions. Fewer strokes mean more skin comfort. Titanium coating. As beautiful as gold yet much harder. Remarkable sturdiness and corrosion resistance.

**2x OptiFoil™**  
for perfect closeness that  
lasts longer.

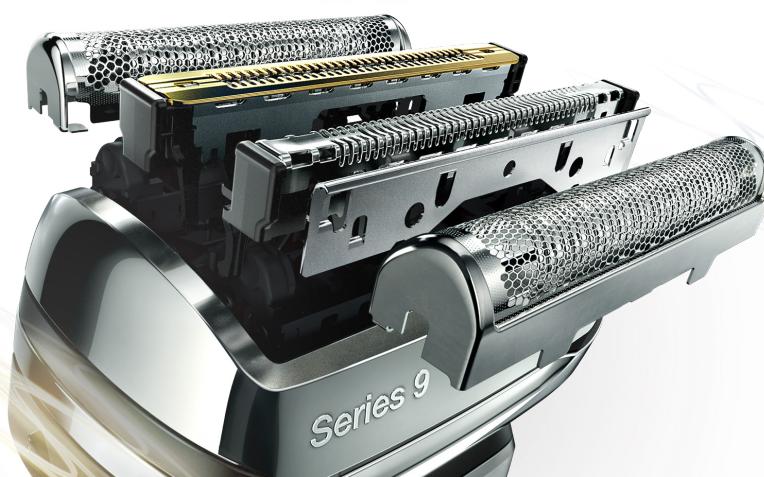

**HyperLift&Cut trimmer**  
lifts and cuts flat lying hairs.

**Direct&Cut trimmer**  
aligns and cuts hairs  
growing in different  
directions.

**Protective SkinGuard**  
smoothes the skin for  
an exceptional shaving  
experience.

Following contours.  
Leading thoroughness.

**10-D Flexible Shaving System**

Independently flexible cutting elements mounted on a 10 directional pivoting head: MicroMotion combined with MacroMotion for maximum facial adaptability, giving you more skin contact for a more thorough shave.

**2x MacroMotion:** Pivoting shaver head  
effortlessly navigates along larger contours  
for maximum skin contact.

**8x MicroMotion:** Individual suspension of  
all cutting elements responds even to the  
smallest contours.

Made for extreme environments.  
Durable and 100% Waterproof.

**Rinse under running water.** The Braun Series 9 can be submerged in up to 5 meter deep water. Which means it is fully washable and you can comfortably rinse it under running water for easy cleaning

**Use Wet & Dry or in the shower.**  
All Series 9<sup>2</sup> models can be used with water, foam, gel or even under the shower. This gives you a refreshing and moisturizing experience without the slightest compromise in shaving performance.

# Like new every morning.

World's only 5-action alcohol-based Clean & Charge Station: Hygienically cleans, charges, lubricates, selects cleaning program and dries at the touch of a button - so your Braun Series 9 shaver feels like new every day.

## Fascinating design. Functional in every detail.

For Braun, good design is so much more than what meets the eye. Every detail matters and forms a perfect fusion of form and function to create the best shaving experience for many years in use: ergonomics, materials, surfaces, interfaces. Like the textured MultiHeadLock switch that provides an ideal grip position for your thumb during shaving.

## Perfect ergonomics for your hand.

The new Braun Series 9 was designed to fit your hand naturally and intuitively. The ergonomic, curved shape and the perfect positioning of the interface touch points allow best handling in every situation.

Trim to perfect shape.

**Precision trimmer.**

The integrated and skin-friendly precision trimmer slides out of the back of the shaver for easy and more accurate sideburn shaping.

Always in the right position.

**MultiHeadLock.**

The easily accessible MultiHeadLock locks the fully flexible shaver head in five positions to achieve a more precise shave. This is especially helpful when shaving hard to reach areas, like under the jawline and under the nose.

Grip for secure handling.

**Rubberized, textured grip zone.**

features Braun's signature dot pattern. It ensures safe and confident handling even in wet conditions.
